

Flo™ 1800 Mobile Workstations

Patient Care

Connects with patients and to patient information in the same place with the Flo **fully integrated wireless mobile workstation**.

From the bedside, across the hospital and back again, the Flo 1800 keeps you connected to clinical applications and data.

The Flo 1800 was designed to **benefit** patients, clinicians and IT staff enabling the **integration** of new technology into an already complex hospital environment.

Flo's mobile and modular workstations give you a **strong return on your investment** and lower total costs of ownership in the following ways:

- Ability to change or upgrade technology as applications and needs grow
- Long battery life
- Minimal downtime
- Higher user satisfaction

Barcode scanner

Locking drawers and cabinets

Slide out ergonomic keyboard

“Flo workstations are lightweight, easy to move and even easier to use. They provide just the right amount of storage and workspace. I can adjust the height in seconds to sit or stand. Best of all the battery lasts my entire shift!”

“We are able to spend more time caring for our patients.”

“Flo’s products help us improve data accuracy and increase patient safety.”

“From the bedside, throughout the hospital, across our entire healthcare system and back again we can stay connected and instantly access all clinical applications and data enabling us to provide the best care possible.”

Patient Care

Flo™ 1800 - Technical Specifications:

Base cart: Footprint Construction Work surface Castors Storage	19" x 22" Aluminium base, column and work surface, with steel support structure 21" x 21" - Height adjustable from 32" to 45" Four swivel, two locking, two non locking, low rolling resistance on all surfaces User configurable; available with several storage and accessory options	On-board Computer: Selected PCs or Thin Client devices from Dell, HP, Lenovo, Panasonic, Wyse, and many others, featuring Microsoft Windows, Intel Core Duo Processor, and Cisco CCX compatible Wireless LAN connectivity. *Actual runtime may vary depending on several factors such as technology configuration, battery age, usage pattern and power supply model/battery option. Runtime is based on a system using 35 Watts. Patent # 6,493,200 #6 ,721,178 #7,009,840 and other patents pending
Display Diagonal size Display type Option	Several options available LCD or Panel PC Touch screen available	
Power Supply Input Voltage Output Voltage Battery Battery run time Charging time (full charge) Charging status power indicator	100 - 240 VAC @ 5 amps 10.5 - 16 VDC Nickel metal hydride (NiMH) Up to 14 hours* 3 hours rapid charge to 90%, 5 hours to full charge, comes with single-coiled power cord for charging all systems LEDs with continuous readout up to 500 W/hr
